

THE FUTURE OF CLINICAL DOCUMENTATION

# Reduce Documentation Burden with **cirrusAI Notes**

Ambient AI that captures conversations and generates structured clinical notes—so you can focus on patients, not paperwork.

THE DOCUMENTATION CRISIS

**2x<sup>1</sup>**

More time on EHR than with patients

**~50%<sup>2</sup>**

Of primary care physicians are burned out

**75%<sup>3</sup>**

Of burned-out doctors blame the EHR

THE AI DOCUMENTATION SOLUTION

**25%<sup>4</sup>**

Reduction in burnout after 30 days

**38%<sup>5</sup>**

Less time spent on clinical notes

**30%<sup>6</sup>**

Reduction in after-hours charting

**8%<sup>5</sup>**

Improvement in patient satisfaction

HOW CIRRUSAI NOTES WORKS

1

**Listens**

AI captures patient-provider conversations in real-time

2

**Generates**

Creates structured SOAP notes automatically

3

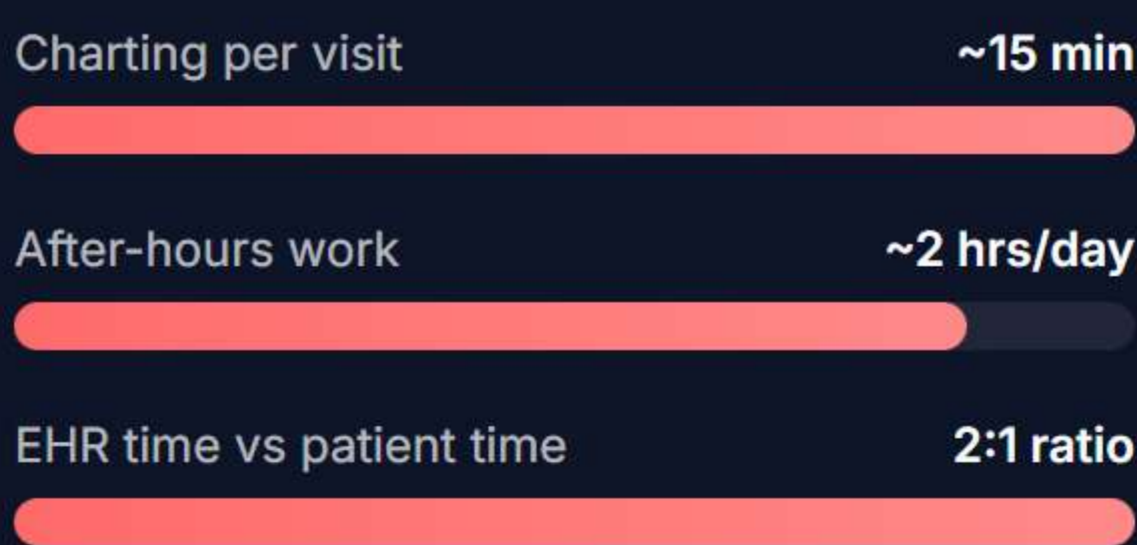

**Integrates**

Documentation flows directly into your EHR

TIME SPENT ON DOCUMENTATION

**✗ WITHOUT AI**

**✓ WITH CIRRUSAI**

ADDITIONAL BENEFITS

**HIPAA Compliant**

Enterprise-grade security and privacy controls protect patient data

**Standardized Notes**

Consistent, complete documentation every time

**Reduce Burnout**

60% of physicians more likely to extend careers<sup>7</sup>

**Seamless EHR Integration**

Notes flow directly into your existing workflow

## Document less. Care more.

Get back to why you became a clinician in the first place.

Ready to transform your documentation workflow?
